Vénilia produces a range of high quality self adhesive decorative laminates such as static window foil, adhesive window foil and decorative adhesive foil in The Netherlands.

Designs of our products are carefully selected based on their appearance and demands of the market. Our assortment includes a wide range of designs and emboss finishes. Heliogravure technology and digital printing are used to print designs according to customers wishes and needs. Our goal is to build strong partnerships with distributors all over the world with a focus on innovation and operational excellence.

## PRODUCT INSPIRATION

## USER INSTRUCTIONS

VÉNILIA

### VITROSTATIC & SELF ADHESIVE FOIL

- Do not apply the film at or below a temperature of 5 °C.
- The film is only suitable for indoor use.

## USER INSTRUCTIONS VITROSTATIC

VÉNILIA

STEP 1

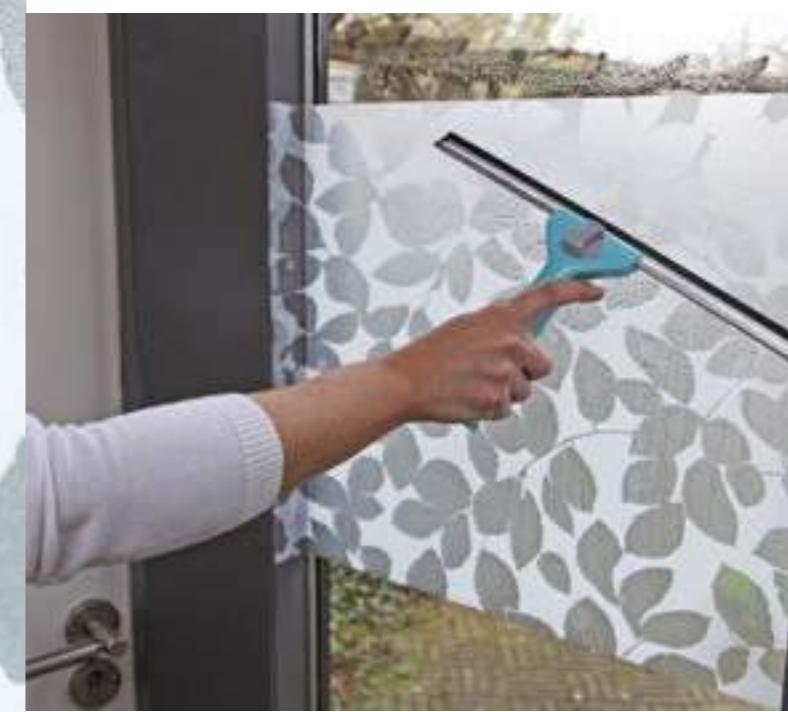

Carefully clean the surface of the section to be applied, making sure it is dust-free and smooth. Cut the film to a slightly larger size than the area to be covered. Spray the window with water. Peel the protective layer off the film.

STEP 2

Apply the film to the window, making sure to position it carefully. Wet the outer surface of the film to prevent scratching.

STEP 3

Use a window wiper to smooth out the film starting in the middle in order to remove air and moisture from in between the window and the film.

STEP 4

Remove excess film using a sharp knife along a ruler or straight edge, and then smooth over.

## USER INSTRUCTIONS SELF ADHESIVE FOIL

## USER INSTRUCTIONS SELF ADHESIVE FOIL

VÉNILIA

VÉNILIA

STEP 1

Carefully clean the surface of the section to be applied, making sure it is dust-free and smooth.

STEP 2

Cut the film to a slightly larger size than the area to be covered.

STEP 3

Peel the protective layer of the film. It may help to spray the surface to be covered with water.

STEP 4

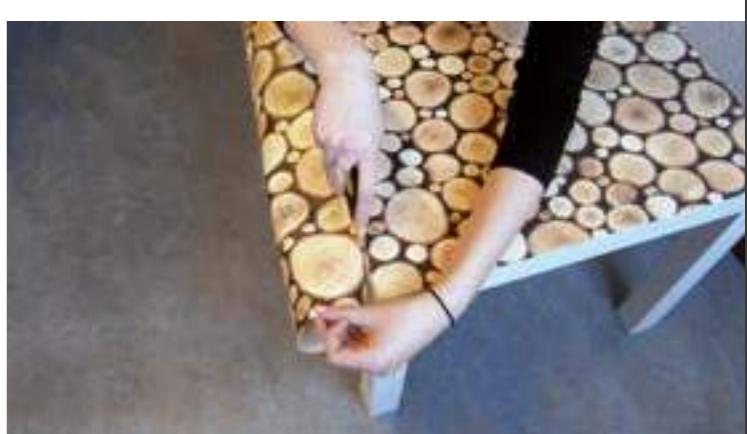

Apply the film to the surface of the section to be applied, making sure to position it carefully.

STEP 5

Use a wiper to smooth out the film starting in the middle in order to remove air and moisture from in between the surface and the film.

STEP 6

Remove excess film using a sharp knife along a ruler or straight edge and then smooth over.
